Implement cubes tipper 1.000x1.020x1.060

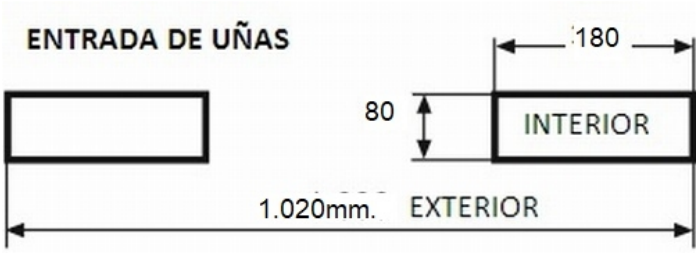

Description

Implement cubes tipper for truck is very useful for tasks such as handling, transport and emptying bins both 120 and 240 liters, that does not exceed 250 kg Easy to use and safe because it has a manual actuation by a tow preventing the driver out of the truck to download. The cube can be rotated 180 º. Very robust frame made of profiled steel and consisting of basic frame for insertion of the nails of the truck. Clamping lever to ensure a good mooring to nail the truck. CE Marked. Made to order, please contact us.
